

# UNITED WAY YOUNG PHILANTHROPISTS

Hello Friends!

We are excited to invite you to be a part of a group of outstanding young professional by participating in the United Way of Anderson County's YP initiative, Young Philanthropists Academy.

The Young Philanthropists group was created to encourage individuals ages 21-40 to become involved in the community through philanthropy, volunteerism and advocacy. The academy will offer them an opportunity to visit several charitable organizations in Anderson County, do some "hands-on" work, and see first-hand how working collaboratively can positively impact our community.

## **Schedule**

YP Academy is a seven-month long program meeting one morning per month. Each month focuses on a different element of the altruistic mindset and will open the eyes of our young leaders to some of the challenges and solutions facing our community.

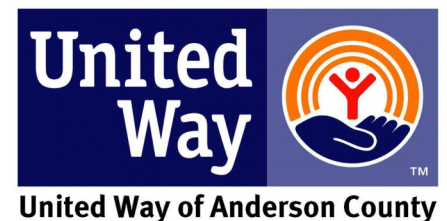

## **Return on Investment**

The academy tuition is \$300 per individual. These funds will be applied toward the United Way's general campaign and will reflect that your company (or whomever pays the fee) is a Leadership Donor of the United Way of Anderson County.

Thank you so very much for helping us shape the future of Anderson County! We look forward to helping these individuals find their charitable passions, create positive change, and build a philanthropic spirit throughout the young leaders of our county!

Sincerely,

Zeke Stephenson  
Director of Community Impact  
United Way of Anderson County
